THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a yearalthough their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per centaveraging 47 per cent - and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a yearl

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

thus has made San Antonio vital to U. S. defense. It's strategic position-150 miles from the Gulf coast, 150 miles from the Mexican border-was manifest to the first men of arms who say it, notably Don Domingo Teran de Los Rios, emissary of the Spanish King who] established a post here in 1691. Supplies were plentiful. The valley of the San Antonio River—so winding the Indians called it by a name meaning "drunken-old-mangoing-home-at-night"-was green. The post was a natural. Whether Russia would withdraw from bases and territory which she wrested in her war with Finland and which guard the land and sea and which guard the land and sea approaches to Leningrad remained to be seen, but the Pinnish government's statement of neutrality followed a denial that German forces were using Finnish bases.

The Finns said, however, Soviet bombers had struck swiftly at their ports and shipping a few hours after Adolf Hitler started his dawn offensive against the U.S.S.R. Helsinki had a 25-minute air alarm this morning and Turku a 50-minute alarm, but no bombs fell.

The conflict ranged from continued maneuvers for position in the far north where, in Finland, the 2,000-mile front touches the Arctic Sea, to the fierce encounter of men and machines, aloft and aground, in the central and southern sectors.

The German high command, customarily chary of detailed claims in the first stages of its blitzkriegs, announced favorable progress, according to plan, by the German land and air forces while in the eastern Baltic German torpedoboats penetrated Russian coastal waters, sinking a patrol boat and four small merchant ships.

EYE BEAUTY: NUMONT—the mod-

ern style in glasses

Poets have long sung of the beauty of Pearls and if you who are born in June can wear one in a birthstone ring, be sure to do this! Smooth, perfect Pearl in handsome setting.

You who believe that Governor O'Daniel should not be elected to the Senate, but should serve on as Governor until he has finished the things he promised to do when we elected him Governor-

You who have planned to support and vote for the candidate whom the final polls on Sunday, June 22nd showed IS THE CANDIDATE to center on to defeat W. Lee O'Daniel—

### Give Your SUPPORT and VOTE for LYNDON JOHNSON

The last Belden Poll in the Sunday's Dallas News, and all the papers in Texas, showed the percentage of the vote distributed as follows: Johnson 26.5; O'Daniel 25.2; Mann 24.5; Dies 22.6; others 1.2. The Poll said: "It is clear that while Johnson has been gaining, all the others have been standing still or have lost to him."

Johnson has shown the most consistent and increasing gains of any candidate. He has moved up from fourth to first place and is increasing his strength and vote as

the race moves to the election on Saturday. He will win with your vote! The reason for the forward surge of Lyndon Johnson is clear. The people of Texas have gradually become aware of the only and great campaign issue—that of American

defense and unity with President Roosevelt as America hurriedly prepares to defend itself and Democracy against Hitler. The people of Texas have become aware that President Roosevelt's valuing Lyndon Johnson's ability and help four years ago in the House Naval Affairs Committee when, over opposition then, he helped provide America with a two-ocean navy, has plainly indicated that he wants Texas to elect this effective supporter of the President's foreign policy and defense program. Texans do not want to experiment in this crisis.

> THE ISSUE IS AMERICAN DEFENSE AND PREPAREDNESS AND AMERICAN UNITY WITH PRESIDENT ROOSEVELT.

MAN JOHNSON HE FOR THE J O B LYNDON LET'S GIVE HIM NAVARRO COUNTY'S PATRIOTIC VOTE AND ENDORSEMENT!

### Important Notice To All Election Officials

Immediately upon the completion of the count of your box, please phone (collect) results to The Corsicana Daily Sun.

The Sun will attempt to give complete county totals the night of the election. This will be impossible without your box.

Just tell the operator to connect you with The Daily Sun, Corsicana, (collect).

You should bear in mind that there is a law in effect requiring that your returns be phoned in immediately after the polls are closed and the count completed and imposes a stiff penalty on the election judge if he shall neglect to do this. The law further provides official returns shall be made to the county judge and county clerk within twenty-four hours after the ballots are counted.

This is very important and your cooperation will be greatly appreciated.

We will make our headquarters at The Sun office the night of the election.
